

AVONITE SURFACES®

THE BEAUTY OF ONE SEAMLESS SURFACE

Exceptional Colours ■ ■ ■
Resource Responsible™

ABOUT AVONITE

Avonite Surfaces® is the **innovation** leader in solid surfacing products with over 25 years creating design solutions for the building, architect, and design communities in USA.

Our collections have been created to provide beauty and functionality with very **cost-effective** specifications, under a strong commitment to sustainable design.

Always responsible to the environment, Avonite Surfaces® was the first to produce **recycled products**. The Recycled range is produced with reclaimed materials that were destined for landfills.

In 1996, Avonite was the first to achieve a certification by Scientific Certification Systems (SCS). This certification is the gold standard for environmental content and practices in USA.

USED IN SOME OF THE WORLD'S MOST LUXURIOUS HOTELS AND RESTAURANTS, AVONITE IS NOW AVAILABLE FOR YOU!

FEATURES

Avonite delivers the beauty of **one seamless surface** and the quality of a long-lasting product that withstands wear and tear in high traffic areas.

Its **non-porous surface** inhibits the growth of bacteria which makes Avonite a highly hygienic and safe for food preparation areas.

The **watertight properties** of Avonite prevent moisture and mold in wet zones providing a long lasting hygienic solution for use in shower stalls, vanities and kitchens.

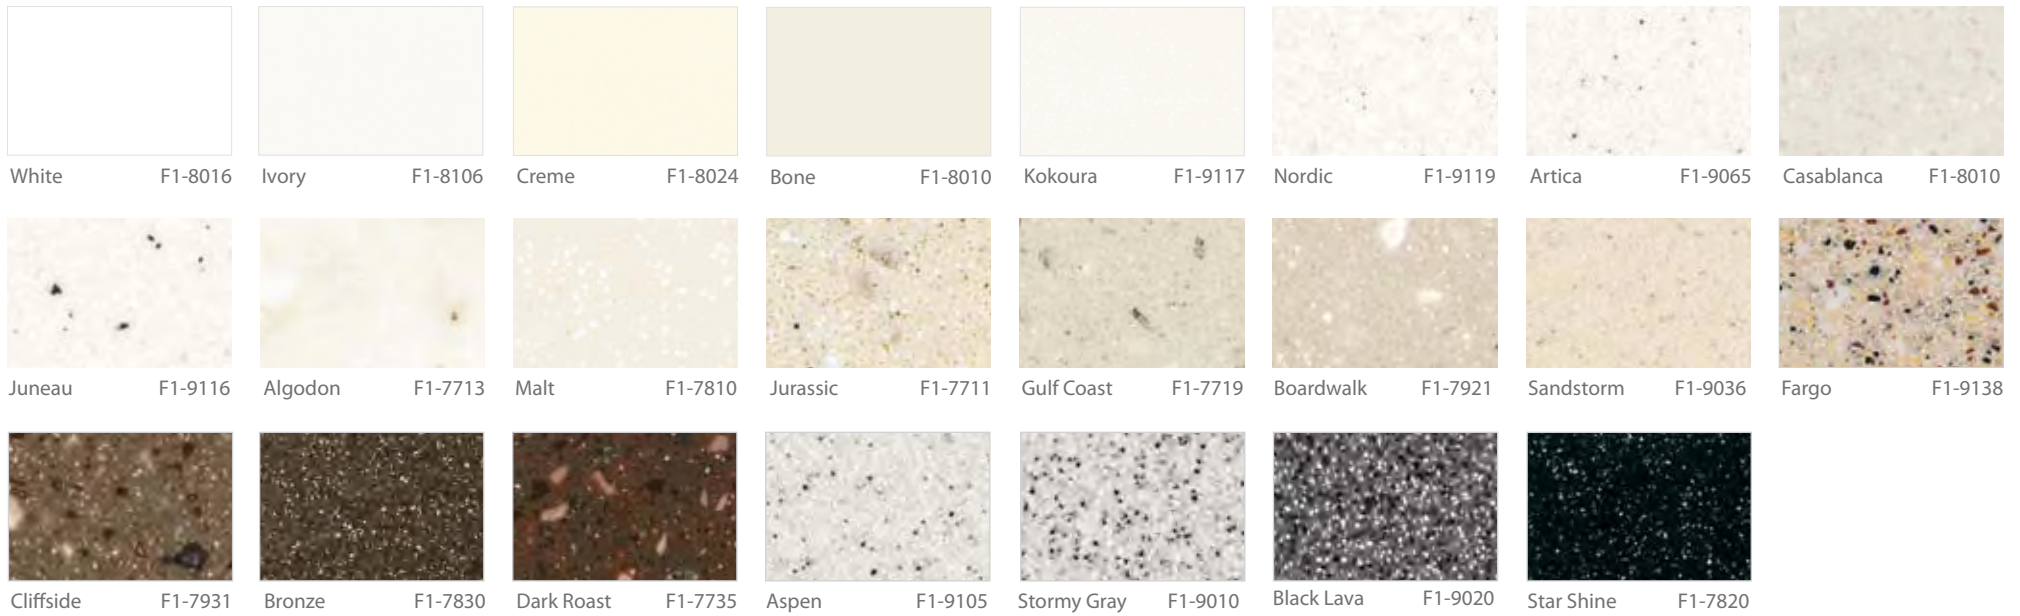

In commercial applications, Avonite delivers **sustainable design** with significant cost savings. The Custom Size Sheet Program prevents waste by providing exact sheet dimensions for large projects.

Avonite Surfaces® is a **smart innovation on solid surfacing now available to you!**

Work stations

CARE & MAINTENANCE

- Daily cleaning with warm soapy water
- Disinfect occasionally with a diluted solution of warm water and household bleach (1 to 1 ratio)
- To remove stains like coffee or wine, clean the area using a sponge and a mild abrasive cleanser like Jif Cream
- Avoid exposing the surface to harsh chemicals like oven cleaners, acetone or paint removers
- We recommend the surface is not exposed to extreme or prolonged heat
- Please refer to our Care & Maintenance Guide for a comprehensive list.
